NY: Your memorandum dated 14 June 1957

1. In response to referenced request, subject was contacted by a member of our [] Field Office. The results of this interview is summarized as follows:

a. Mandel lives with his 12 year old daughter in an apartment on 15 Hickles Street, and now works for Alampert, 642 Junius Street, Brooklyn, New York, putting up aluminum siding.

b. Mandel indicated that he would like to go back to Germany, if possible, to continue his previous type of work there, but he doesn't want to lose out on getting his U.S. citizenship in five years. He did not seem too interested about going back to Germany. He agreed to discuss things with him at a later date when his judgment will be based on better knowledge of life in the U. S.

c. Subject works with a friend, another Russian, by the name of Arthur Filler, who lives at 64 West 190th Street, N. Y.

d. The heat and humidity in New York City seems to have added to Mandel's misery in getting adjusted to local conditions.

e. Mandel made an application for a job with Western Electric where experience under arctic conditions was a prerequisite. He feels he may not get this job because of security regulations and asked if we could assist him in this respect. He said that he would advise us if anything develops in regard to this job. Since there is nothing that we can do to assist subject in obtaining an Alien Industrial Clearance we did not make any provision to help him in this respect.
